

FUTURE ENTREPRENEURSHIP: THE BAVARIAN-DANISH BIOBUILDER CAMP II

23-26 November 2026 in Copenhagen and Munich

Ready to apply?
Scan the QR code now!

Limited spots available

Do you want to get deep insights into **business planning**, funding and **commercialisation of life science** research? Do you want to meet local innovation networks in Munich and Copenhagen? **Then apply now for the chance to become one of the 20 participants joining our 4 day camp with travel, stay and food expenses covered*!**

This international exchange consists of workshops and discussions with experts from academia and industry, with this iteration of the camp touching on AI in the biotech field. You will connect with peers, share perspectives, and gain insights into the broader life science- and biotech ecosystem in both Copenhagen and Munich - including how AI and informatics are increasingly shaping research and innovation in this space.
